DETAILED ACTION

Election/Restrictions

Regarding the restriction requirement: Applicant's election with traverse of Group II, claims 7-9 and 16-28, in the reply filed on 3/14/2005 is acknowledged. The applicant has not provided reasons for the traversal. The requirement has been reviewed by the Examiner and is still deemed proper and is therefore made FINAL.

Regarding the election of species requirement: Applicant's election with traverse of Group I, claims 7-9 and 16-22, in the reply filed on 3/14/2005 is acknowledged. The applicant has not provided reasons for the traversal. The requirement has been reviewed by the Examiner and is still deemed proper and is therefore made FINAL.

Claims 1-2, 4-6, 10, 12-15, and 23-28 have been withdrawn from consideration as being drawn to a non-elected invention or non-elected specie. Claims 3 and 11 were cancelled in a preliminary amendment.

Specification

The abstract of the disclosure is objected to because in the last line it appears the language "Rules may added" should be changed to --Rules may be added--.

Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7-9 and 16-22 are rejected under 35 U.S.C. 102(b) based upon a public use or sale of the invention. In the Information Disclosure Statement file 4/9/2002, the applicant indicated on page 4, last two lines, that BONY received payment "for the accounting services performed with the use of the system of the present invention **inclusive of the accounting performed previously and up to that date**". Because the applicant received payment for accounting services performed prior to the critical 1 year bar date of February 15, 2001, it is believed that an offer for sale had occurred prior to the critical on-sale bar date.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7-9 and 16-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Blasnik et al.

Blasnik et al. disclose a method for accounting for a plurality of transactions for a plurality of accounts using a plurality of accounting rules, the accounts having a cost basis associated therewith, accounting information being derived for the transactions, and the derived accounting information being posted to a ledger.

The prior art lack the specific teaching of the sequence of the method steps, however the sequence would have been obvious to one of ordinary skill in the art at the

time of the invention, in view of Blasnik et al., in order to acquire the final accounting information.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
